DETAILED ACTION

Allowable Subject Matter

1. Claims 1 – 24 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 1 - 24 recite, inter alia, a fabrication process for a semiconductor device comprising the steps of forming an undoped intrinsic semiconductor layer on a substrate, implanting dopants of two different conductivities to two different depths and heating the substrate to diffuse the dopants such that the diffused dopants form a drift region and a channel region on the substrate. Although, Hshieh, US 6,312,993 teaches a fabrication process for a semiconductor device comprising the steps of forming a drift region and a channel region on the substrate, he fails to teach to form them by the step of implanting ions in undoped intrinsic semiconductor layer formed on a substrate. Furthermore, the art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.

Conclusion

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
